

CAP Barbell Antimicrobial Treated Puzzle Mat, 24 sq ft

Protect your home gym floor with the CAP Barbell Mold and Mildew Resistant Foam Puzzle Mat. It is ideally suited for covering hard floor surfaces in gyms, exercise rooms, trade shows and playrooms. The 24 sq ft CAP Barbell puzzle mat comes in six pieces, is made of thick, high-density foam and is designed to be modular. Each set includes finishing strips for the edges to give a smooth, polished look. This workout floor mat's versatility allows for multiple configurations or joining of additional packages to cover a larger area. You could cushion the floor of an entire room. Although designed to protect your floors from damage caused by exercise equipment, the CAP Barbell Mold and Mildew Resistant Foam Puzzle Mat's uses are limited only by your imagination. Protect children's knees in playrooms at home or in a childcare setting. Ease the strain on your back from constant standing at your workplace, in your garage or even in front of your kitchen sink. The 3/4" thick high-density foam provides a firm cushion wherever you need one, and the mold and mildew resistance helps protect your floor, as well as whatever furniture or equipment is placed on the workout floor mat.
