

## Clever Yoga BetterGrip TPE 6mm Yoga Mat, Light Blue

The Better Grip Yoga Mat is made from premium 100% Recyclable and ECO friendly TPE material which is UV resistant, odor-less and free from PVC, Phthalates, Silicone, Latex and other toxic materials. You know you are safe to practice on it with peace of mind. At 72" long and 25 1/4" wide this is longer than your average mat and the 1/4" thickness gives you extra padding. Most of our customers use yoga towels when they practice hot yoga and sweat heavily because a wet mat will make squeaky sounds with movements, which is normal for all the mats on the market. The difference with this mat is that you can just wipe your sweat off during your practice if you prefer not to have a towel on top of your mat. With high quality material, this mat is anti-tear too. At Clever Yoga, we want you to be 100% satisfied with our products and service. If you are dissatisfied any time in the future, our special Namaste warranty provides you a no-questions-asked refund!
