The Yoga pants are the ideal fitness pants for women who do yoga, weight lifting, lunges, squats, cross training, running or anything that involves bending over, any type of workout, or everyday use. The material is thick enough that not see through if you bend over, but not too thick that it becomes hot and uncomfortable. We've thought through the small details in each high quality piece we create to fit with your distinct lifestyle and sense of style. Our yoga pants include hidden pockets in the waistband to stash essentials for maximum convenience. Elastic waistband for comfortable fit, stretchy construction for greater freedom of movement. Applicable Occasion: Our yoga pants provide a flattering and comfortable fit, whether you're doing yoga, running laps or running errands. They are also the perfect choice for daily wear.
