

## Gold's Gym Elite Wrist Wrap Adjustable Leather Gloves - S/M, M/L, L/XL

Protect your hands as you lift with Gold's Gym Elite Wrist Wrap Leather Gloves. Get the most out of your weight-lifting routine without experiencing uncomfortable pinching or developing inconvenient calluses on your palms and fingers. These genuine leather gloves feature gel padding for maximized lifting comfort and textured microfiber palms for an enhanced grip as you train. This durable, lightweight build will help your hands stay cool as you build strength and increase endurance in the gym or at home. A half finger design allows you to feel the weight bar in your hands, increases the flexibility of your fingers, and adds additional breathability for your hands. Incorporated wrist wraps offer improved wrist support and are fully adjustable, allowing you to find the most comfortable fit and providing increased stability as you lift heavy weight. A sweat wipe is conveniently placed on the thumb of your gloves, and a pull tab on the underside of your glove's middle finger makes them easy to slip off after a tough workout.
