

Natural Fitness Eco-Smart Yoga Mat- 24

Made from Polymer Environmental Resin (PER), an innovative substance that is safer for the planet and your health than yoga mats made from standard PVC foam, this material is easy to clean and provides excellent non-slip traction. Cushioned to protect those new to yoga or other mat exercises, this material is also incredibly durable, making this eco-friendly yoga mat a great gym or at-home option for those practicing daily or intensely.
