

Sportime Physio Roll Exercise Therapy Fitness Ball, 21.75

The 21.75" Sportime Physio Roll Yellow Exercise Ball makes a versatile addition to physical education classes. The ball produces a forward and backward rotation while holding the rider within a contoured saddle to help with balance and muscle tone and offer sensory stimulation. It is also useful in physical therapy sessions with younger patients. This fitness exercise ball is made with a durable material, allowing it to hold up under pressure.
