mild detergent works best at removing stains while protecting the and color if there is one. Use cold water in laundry loads because it not only saves energy, but it also prolongs the life of fibers and color. Lay out to dry on a flat surface, or hang up to air dry on a hanger. Some lace pieces may need to be laid flat for shaping, using pins to attach it to the flat area so that it dries with its proper shape. Avoid putting lace into the dryer or ironing it, since it can burn the delicate fibers.
